Wednesday May 26-1999. Clear 54 wedding anniversary.

18/54 We are reaching a milestone of married years. Just glad and thankful we are together. With Edwards health problems it has been a little cloudy. Prepared a fruit salad + I went to R.V.S. meeting at Wilma Nafi. We ate but had lunch outdoors. The weather was great. Enjoyed the social. I visited Bev awhile. She is so thin + not much energy. Later Edward + I went to Temple session. He went without oxygen and needed it when we got out. Burke Resman was on security duty + came + helped us to the car + got Edward hooked up to tank. He said the baby is doing well + Janaline is also. We met Evelyn + Bruce at 3rd Middle to eat and visit. She sent us a lovely letter from a loving daughter - expressing her love + thanks to us - her parents. An enjoyable day. Talked to Marlene by phone.

Thursday May 27, 1999 Another lovely summer day.

18/53 Edward worked in studio painting. I cleaned windows + screens. Visited Bev + Lloyd stable. Ken came also. I gave fruit salad to see + Jessie Dealey. We had electrical trouble and Oxygen tank had malfunction. Edward and I went to Waukegan for flowers. We put flowers (Chrysanth.) at Edwards family and we found the Bradshaw grave. We went to one Anderson + Blanning home grave. On way home we got another oxygen tank at Shopper.

Edward + Ialey cut + trimmed our lawns he set + visited awhile + we had glass of orange juice. (92 Portland Buzz 80 lost the game + championship?)

Friday May 28, 1999 Beautiful weather. Quite warm.

18/50 We slept better than usual. Had breakfast + also some laundry over with. Called Valerie + Jack to ask them to go to Cache Valley with us. They accepted. We left here about 10:30 or so. We drove by way of Blaneyville. We got to Rogan at noon. They had coupons and we went to Arto Circle

for hamburger & brew (they treated). We went to Willow Park to eat our lunch. Nice in the shade to eat. Lots of young school children in the Park for an outing before school is out for the summer. We then went to Richmond cemetery and put out flowers on mom and grandpa's graves. Walked down to Mt. Zion house. The grounds are beautiful - green & cut. So pretty. We drove up the old high road down past our old home in High Creek. Brought back childhood memories. Stopped and visited. Ingrid Barbara Pedrick & a friend. She was planting flowers in her yard. Her yard is so pretty. They are fun to visit. She didn't want us to leave. We drove home thru Sardinia Canyon. Not too much traffic. We got home at 4:30. Big day, but we enjoyed it. Didn't get to stop at Bruce's! Didn't know if he was at work. Edward rested when we got home. We turned the A/C conditioner on today. 1st time this year. Our Bruce called to ask how we are. He may come down here on Sunday. He has to work tomorrow. He said Bruce is working for him. Note room a bagon today with the school and at Crystal Springs with Carl tonight.

Saturday May 29, 1999 Nice morning. Rain showers afternoon. After breakfast Edward and I went to Morgan and got Evelyn and we went to workshop to help Marlene. She had a yard sale. Not too many came. Edward took pictures & we sold Evelyn & I cleaned some windows & woodwork. Marlene washed curtains. I pressed some & we got some re-kung. Her friend from Las Vegas came. She knew that Marlene met at school was there. A young lady age 20. Her father has wife, Marlene & kids stay at their home in Las Vegas. We helped Marlene pack up and what's brother Nathan helped also. He has changed since we last saw him just

before he went on his mission. Evelyn brought two chairs home from marlene & I got a couple items for gifts. We also have 2 bags of clothes to take to the U.S. We stopped at store in Morgan when a truck driver turned left. We got home at 4:30 & put things away.

Greg Strong had a heart attack this morning & he was flown to Salt Lake. They live in Wyoming. Madelyn had called Valerie & she called Evelyn while we were on our way to Morgan. Greg is 43 yrs old. I called Valerie at 5:00 clock & no news yet. Valerie called later & she talked to Madelyn as they came home. Greg still unconscious. No decision of what the doctors are planning to do. Valerie & our Bruce called tonight.

Sunday May 30, 1999 Nice sunny morning but strong wind late afternoon. Edward and I up early. Our Bruce called & then he drove down by himself. He visited awhile & we went with him to Ogden cemetery & then we went to grandma's grave and put flowers on it. Someone put a big pretty wreath on it to. Bruce said he thinks of her. 24 yrs since she died. His life would be so different had she lived. He called Bonnie & talked to her and the kids. He called when he got home. He usually comes alone. Not support for him by his family.

I attended all meetings but Edward went to Sacramento meeting. A young ^{40 year old} student from Klamath played 3 violin solos. She was accomplished player and enjoyed it very much & then the audience sang songs picked by 6 members. Heard calling Madelyn, Valerie & Evelyn - No answer. Hard wind blew today.

Monday May 31, 1999 Memorial Day. Overcast morning but started to clear before noon. I called Valerie and

Evelyn this morning to tell them about Gary Strong. I walked down to ... She doesn't look good. She has heart palpitations yesterday. She isn't eating very much. ... We left here at 4:00'clock and drove to Evelyn. ... Evelyn had been over to David's to help plant a garden. She was going to watch the baby while Elly & Brooke went to a ball practice. The baby had diarrhea. We took Derek & Dallas to their place as Marlene & Robert drove to Las Vegas to look for a place to live. The boys were glad to get home. They might scuffle & fight with each other. We went to the immense store - (Rafter B) for milk & a few items. We went to bed early. Edward & I slept on the couch in the front room. Hard on the sofa to sleep well.

Tuesday June 1, 1999 We were up early. After breakfast I painted door, frame, window sill & miphane. My little foam brush was out & I did it. We went to Coville to grocery store as Marlene left 7:00 to get a few items. Kids played outside on the bike & Derek fell & cut his knee & bruised the other one. I doctor'd it the best I could as I couldn't find alcohol or band aids. Marlene had called early & they couldn't get an early flight so had to wait. They got home at 11:00'clock & we visited awhile. Edward got sick & threw up & diarrhea - but felt better by bedtime. A man called about renting the house. The real estate lady couldn't give the \$1000 or back when the house deal didn't go thru. Don't know what they can do about it. They found an apt. in Henderson, NV. for \$800.00 a month.

June 2, 1999 Wednesday. We were up early. Ellen & Marlene got up and told us about the trip & it had been all about the flights over the Grand Canyon. All boys were glad to see their parents. Edward paid 75.00 to Marlene for a cupboard & we brought it home. Bathed & dressed. Made checks for utilities - Rent & etc. Went to town for groceries & credit union & gas station. Evelyn called as did our Bruce. Rain & snow today. I paid rent by check as usual & had to go to office as I forgot to sign it. Brought a few reading books. Got invitation to baby Rosemarie blessing this Sunday, but may have to wait as she is in hospital - heart problems.

June 3, 1999 Thursday. Elly 22 yr old. We slept late. After breakfast - laundry & housework we went over to town. Edward had his oxygen tested. 86%. He is disappointed as he doesn't like to have the oxygen on and it is a nuisance to drag around. We left three bags at D.J. for Marlene. Got 2 more oxygen tanks at Procare - we went to C.W. & the teller made a mistake on my request on our savings account yesterday & then rectified it. Edward worked in his studio for B.M. today. He is re-organizing it again. He called Valerie & talked awhile. I talked to her also. He & Carol went to see Gary Strong in hospital. They visited all the family but didn't see him as he is in ICU. He is in a coma yet. Since Saturday I sent a card to Gary and to Madelyn & David to let them know we are thinking of them. Valerie said Jack is in Henderson. I visited Bev & Floyd awhile. She is so thin. So worry about her. Evelyn called to get 7 of Studio phone #.

She said Blake was out job hunting. Marlene called to ask if I would come to help her paint. I said yes. The new carpet was laid in her front room and hallway. The sun has ~~been~~ shone + fairly nice.

Friday June 4, 1999 I was up early as I went to Marlene (in Wanship. 007). Edward was going to track up the paintings to take to the Barber. She worked on Sat. Got to Marlene about 10 o'clock. She + I started to paint the rest of door, window frame + moldings. We worked until 3:30. (also painted drawers) Whitney had to go to work on afternoon shift. The new carpet looks nice. It is a shade named Granite. Blue with light highlights. She said it cost \$800 +. Later she made Pizza Pie. We watched a video before going to bed. Thunder and lightning. I called Edward. He was ok. Electricity has not for 2 hrs he said. Bruce stopped + ate supper with me. Had had been to Brook's High school graduation + took her to lunch. Stayed one night at Marlene's.

June 5, 1999 Saturday Slept on couch in T.V. room and kept losing the covers and got cold. Slept restless. The sun was shining when we got up. I called Edward + he said he was ok - it was raining + he wasn't going to the sale + it maybe cancelled. Evelyn came to help Marlene + me. We worked in the kitchen. Cleaned out the cupboards + put them in boxes + we washed them. Marlene worked in the basement. I have 4 or 5 brown bags of items to take to D.I. Marlene, who + kids went to Park City. Evelyn + I ate lunch at Hamburger place in Wanship. When Marlene got home and Whitney

went to work Marlene sorted the kitchen things - some to take to Mrs. Lane in storage + some to D.I. We all worked until 5:30. Evelyn + I left for home. Ray came yesterday + took the bins to Marlene to take care of. They he + Bruce stopped + got the truck + piano bench. Valerie called + talked to Edward. She had talked to Madelyn and Mary is still in coma. A week today. I got home between 4:30-5:00' clock. Edward + I talked awhile. I bathed + looked awhile. washed my hair + brushed my teeth. Felt so good.

Sunday June 6, 1999 Holiday we went to Morgan to the blessing of Geraldine + Brooke baby boy - Garrison named. He is a cute dark haired baby + a good baby. Geraldine + Bruce hear their testimony. After we went to ~~Brooke's~~ sister's home for Father's lunch. Bruce, Brenda, Pete, Mary, John, came as did Evelyn, Susan, Brooke, Sam + Blaine - Connie + 2 kids. Herb, Anneline + her - her's parents, sister + families + friends. Hard rain + wind. The crowd waiting. Some stopped by on their way home. Thunder + rain early morning. Edward went three + 4 hrs without oxygen + he felt it. Read paper + watched T.V. Retired to bed. Raining.

Monday June 7, 1999 Mostly cloudy. more rain predicted. After breakfast Edward went to Studio to track up pictures. I changed bedding and washed + dried two batches of clothes. We looked in the bags Marlene put in car. I took the balls of crochet thread out + gave to my B.S. visiting teacher. She crochets. Edward + I went to D.I. I left the bags we brought from Marlene. went to Ben's Super, markets, and Meyer, Stee + Shop and bread store. Later I visited Bev + Rhyde. Real than a plate of cookies + bread + she sent cake with me. Rhyde's two sisters visited them today.

Evelyn visited us awhile. She had some fun court
travelling for her job. She ate supper with us & went
until 7:00' clock. We talked to Marlene by phone. She
& what took the boys to Salt Lake to see Star War movie &
she was tired. Some people looked at her house yesterday
and someone was coming tonight. They are going to come
on June 18th as the apartment won't be available until June 21st.

June 8, 1999 Tuesday Sunny until afternoon. Partly
cloudy. Edward was in studio awhile & I worked in house.
Re-dung the kitchen curtain. Valerie called & no change in
Blair's strong. She talked to Rudy Jolly & Wayne in having some
tests on his heart. Bruce is having discomfort using his oxygen.
Jane came, nose & etc. She said the house in Keyville that
Carol just sold was hit by lightning & the strike hit circuit
box & blew out all appliances that was plugged in. An electrician
had to be called in to repair the electrical outlets. Steve, Fritz
& etc. The neighbors rolled around to help them with meals
& etc. We went to Pettitfield to get the repaired hearing aid.
Paid by visa \$170.00 as I forgot checkbook. We went to Ogden Clinic as
they sent us a notice of \$1.01 due & they put wrong code on it. I also
called N. Dylan Blair & the \$10.00 bill will be paid by insurance. we
have been good for 24 hours & Edward didn't take oxygen test.
I attended Temple session with our ward. About 30 or so
from the ward. talked to Redon Peef as she helped me at
the veil. I stopped for gas. It was 9:00' clock when I
got home. Edward said Evelyn & now Bruce called.
Blair called and she wants me to pin her hair tomorrow.
I called Elaine Jensen and Howard has urinary track infection
on anti-biotic. He still doesn't feel good. She said they are
going to see Martin Sargent and the Castedale Sargent in Aug.

June 9, 1999 Wednesday. Wind. Sun shine - clear warm day.
After breakfast I melted snow & Rylee and put rollers in her
hair. We talked about our childhood days in Deep Creek.
Rylee didn't pass the driving test & he has to try on Monday.
Edward had to get under house and put the heat pipe back
up as it fell down again. He drilled & put screws and seal
wore to hang it. If it falls again we will have to get a
repairman & put metal pipe in. Edward didn't get dizzy.
I put boards under house for storage & put things away. I cleaned
the kitchen rug. The bombing has stopped in Nabors as a
peace agreement is in process. Lot of people dead & homeless.
Evelyn called. She said Marlene hasn't rented the house yet.
She is discouraged. She is busy cleaning & sorting. Our Bruce
called. He talked to his dad. Bruce said the Publishing
Co. in Brem has reviewed his joke book - one more reviewer has to
read it - if he thinks it will make money they will publish it.
Bruce is cautiously hopeful.

June 10, 1999 Thursday. Cloudy & light rain shower this Am.
Edward in studio. I washed & dried work clothes & towels.
Prepared a roast & vegetables for dinner. Sorted one cupboard for
paper goods. Got rid of a set of cookbooks & kept favorite ones.
Talked to Bev awhile. Her crown hurt. Mr. Bausher nurse called in
prescription ^{NOSE} drops. After lunch I went to give coins to
Parsons to send utility bills. to Rita and drugstore for Edward's
medicine. I left a sack & box of items at the D.S. I bought
a few groceries at Albertson's. Edward worked in his
studio. I had the garden and vacuumed the car.
We read & watched T.V.

65/52

June 11, 1999 Friday Nice summer day. Supposed to get
really hot in a few days. Edward has been in studio

painting. The artificial hip snapped out again today.
It is of concern to me. He needs to get an X-Ray. I
sorted and ~~sorted~~ replaced items in hall closet.
I took Bev to Wal-Mart as she brought birthday and father
day presents. I bought soap, paper & candle. We were
gone a few hours. I made meat pie and took some
to Bev & Beth for their supper. Lloyd went to the doctor
& got a clean bill of health. He had an blown putting
a new motor on the air conditioner. Talked to Bernie Bell
and she said Barry Strong had brownia and also on decline
because of kidney problems. He is still a come.
Guelyn called. She said David is home from Jackson Hole
& may get to take Adriana back with him.
Blahie training as a waitress at ^{at the bees} Applebee's place he is going
to sell something. I called to tell Guelyn I'd pick her
up tomorrow morning to help Marlene. I called
Marlene to let her know we would be there in the morning.
I took a long walk around the park. I visited the
Hurst family - they are having had financial problems
plus the buyers of their former home is selling them because
of a bathroom leak that they were unaware of & because of
stress she had an emotional attack & was in the hospital
for 5 days. She looks drawn & worried.

8/41 June 12, 1999 Saturday. Warm summer day. We came up
early. After breakfast Edward went to the Park swap meet.
He took some pictures but didn't sell any. Not many outsiders
to attend only the residents. They want to sell their trunks.
I went to Guelyn & she was tending the baby (trace) as
Clay, Bruce & friends went to Malak rodeo so he can ride a bull.
He is throwing money away. We went to Marlene & what
took the loop to Park City. Bought a toy. We ledin & baby

went to Park City K-mart store for a remodeling grand
opening. They gave away prizes, food, drink & etc. They had
different items. We went back to Marlene with a lot of
items she bought. We swept the laundry & furnace room -
bats, front & back steps. Cleaned oven. Packed books. We were
busy. Some people made an appointment to see the house
but they didn't show. We were disappointed. He needs to
have it rented before they leave next Saturday. She baby
slept 3 hours. We got to Guelyn - unloaded what she bought
in K-mart. Her house looks like a pink yard. No one
picks up or cleans up. She just blacks it out of her
mind. They aren't doing the 4 extra pages any favors
and they aren't being the parents any favor either.

I got home about 7:00. But it's away. I told Edward
all that transpired today. Oh - showered - read paper.
We saw Mark Eaton (Basketball star of Jazz team) at
K-mart. Wow he is tall - 7'2".

June 13, 1999 Sunday. Mother 104th birthday and she lived.
Forace Miles 57th birthday. We gave him money & jar of sunflower seeds.
8/3/99 Quite a warm summer day. Bev Bruce called to ask how we are.
He was at Anderson's Barber working. a neighbor Mr. ^{Lee} Forace came
to visit Edward to look at paintings & wood carvings. He had met
Edward yesterday at the Park yard sale. I attended all meetings.
Edward came to Sacramento meeting. Marian & Quentin Hurst sat by
us. Guelyn called at 9:45. She had a Wood tick stuck
on her breast. Clay & I tried to get it out and couldn't
they called Bruce home from church and he put a hot
match to it and it pulled its head out. David told them
he had given his boss a two weeks notice. He hasn't
liked the treatment he got from them. He has a lead
for another job. This news was the final blow

and Evelyn started to cry. Her nerves and worry + stress of the 4 kids and their problems of work + money + all their personal problems is more than she needs now. Marlene + boys ~~there~~ there for dinner as Evelyn went to get them + the boys were so unruly they took them home. No more prospects to look at Marlene's house. Greg got tired off the ball as usual - money spent for 4.5 weeks ride.

These kids spend their money for entertainment + self indulgence with no regard of the burden they are putting on their parents. All need to be out + their own + take responsibility of their living. I get so concerned + upset as Evelyn is on an emotional edge. Not healthy.

June 14, 1999 Monday & Tuesday - Edward hung the flag on the front porch. The moving was trucking but getting his key afternoon. Edward worked in studio + I went thru 4 or 5 dresser drawers + threw some old items away. Shredded checks + blank with wrong address. Shred the carpet. Prepared dinner. Talked to Jack + Valerie. They have no news about Gary Strong. I talked Gilbert Bingham + Evelyn. We are going to Belknap to read some letters about the Bradshaw family in England. We are meeting them tonight. A month ago Sony Bingham fell + broke her spine in two places. She is using a walker + oxygen. I received a letter from Eric Armitt in England + they live 30 miles from ~~Stalybridge~~ Stalybridge + they will try and get us a map + book of the area. Now expecting. Evelyn and I went to Greg + Gilbert Bingham to look at family pictures of Edward's mother + Dad - family on the dairy farm in Belknap, Idaho and to read a history written by Edward's grandmother Bright. We are going to get two copies.

Evelyn is going to write a letter to Eric Armitt in England to see how to obtain the book + map of Stalybridge. I just received a letter from Eric + she mentioned if her gets better they would drive to Stalybridge (30 miles away) and get them for me. We would appreciate it. I called Janet Jackson - Eric + Eric's daughter in our old ward and told her I'd received a letter from her mom. I asked her how to send money to them for the map + book and she said a bank cashier check. He said her dad isn't doing so well. His feet are so swollen he can't get shoes on. He hasn't been to a doctor. It is cooler tonight. Evelyn said Marlene brought the computer desk + chair down. I crawled under the mobile home to hunt for an elec. fan for Edward. Dirty job but found it.

June 15, 1999 Tuesday Another warm summer day. Well get hot by afternoon. Worked in house - laundry washed - dried - vacuuming. Cleaned the carpet. Except to much junk on it. Edward has been in studio awhile this P.M. + P.M. The artificial hip joint popped on him again + I heard it. We called the doctors office and he has an appointment next Wednesday to see Dr. Bryan. Another concern. A pleasant surprise. Betty + Herman Drfill came and visited us a couple of hours and we enjoyed them. We are going to dinner with them tomorrow evening. They are here for a private funeral. Herman's granddaughter had twin baby girls born prematurely + lived about 15 min. I visited Bob and Kathryn + Mitty was there. Mitty cleaned most all the carpets for her. He is so good to help Bob. I went to R.S. work meeting and a lady who works a primary hospital spoke to me + showed a video of the hospital patients, doctors + nurses. Later we stuffed machine dolls for the patients + some sewing clothes for the dolls. We

at been soup & cake & brownies made with part wheat flour.
Stomach from food storage. Our Bruce & Evelyn called to ask how
we are - we invited them to dinner at maddy for fathers day
treat. Darrell Strong called to tell us that the recuperator was
swamp from belly so I guess he is breathing on his own. He
has come out of the coma but can't speak yet. They are
encouraged. Blake answered the phone when I called Evelyn &
said people are ignorant & won't leave a tip after being
served. I said working with the public you meet all
kinds of people. It is a tough racket.
Betty said her sister Rena signed the house over to them
a few weeks ago. They are getting it ready to rent.
I met Rena 2/11/00 a month at the car center. He likes it
there.

June 16, 1999 Wednesday ^{Betty & Derwin Orzell} Flat summer day. High clouds.

Edward up early. He has been painting in studio.

I visited Jude's dealer, Anita. She had a scope test
yesterday. All ok. I left she may have gall bladder
problem. Talked to Evelyn twice & I'm going with
their R.S. group to a tour of church grounds in Salt Lake.

I cancelled my pen appointment until next week.

Betty & Derwin Orzell came about 5:30 or so and
we took them to Ardie's Chuehows to eat. We then came
home and watched the NBA basketball game and visited.
We really enjoyed their visit. Edward gave Betty 4 pin balls & a drinker.
Don ant... 59 NY 17 Home 1.

June 17, 1999 Thursday Flat summer day. We slept
restless & up early as I left here at 7:40 and went
to Milton Ward Church house and met Evelyn. A large group
of the ward R.S. members & family went in vans to Salt Lake

Four of us rode with Mrs. Hall. We met by church office
building and Palmer Stephen took us on a walking tour to
Vehiv C. Kimballe grave site, Brigham Young grave & told of
different leaders & prominent men & women who had a tremendous
influence in the church - from Prophet Joseph Smith to Bruce
Kirkham B. Kimbally. Explained where the leaders homes were from
the Kim House ^{around} the area. Evelyn can recall names,
dates - places & happenings that made the town so interesting.
I wished I had a tape recorder. The weather was nice -
not hot. We then went to Chuck Wagon in beautiful to eat
lunch. I stopped at Evelyn's a few minutes. Blake was at
home. He said he was tired of being home. The waitress job
isn't easy. I went to market to buy milk & came home.
Got home at 4:00. Edward visited the neighbor Lee Brown to
look at his paintings. He is a divorced man.

Roder Howard Realey visited & I gave him & Edward net
sunder. He adjusted a sprinkler head. A rewarding day.

June 18, 1999 Friday Another hot day. Mornings are nice.

Edward cleaned his studio & I vacuumed it & I washed outside

Tornado signs tail north

Those in Box Elder, Weber counties shocked at unusual storm warnings

By TIM GURRISTER
 Standard-Examiner staff

While airport tower workers got a rare view of tornado tails dangling over western Weber County Wednesday afternoon, Box Elder County residents were hearing a rare tornado warning.

The multiple tornado tails passed uneventfully over Weber County about 3 p.m.

"They must have just went right over us," said Leah Edgington, an assistant to the airport manager who was in the tower of the Ogden Hinckley Airport at the time.

"We had several people call us saying they were watching the tails," she said.

Hearing the tornado warning for Box Elder County about a half hour later was a shock, she said. In her 10-plus years at the airport, she said she had never heard a tornado warning.

"Never, never, ever" she said. "This is like, surprise."

Then, she got another surprise. With the airport under a deluge of hard rain, Edgington began picking up reports of snow on Ben Lomond peak.

"Hello, it's Aug. 11," she said.

"Never, never, ever. This is like, surprise."

- Leah Edgington

"People aren't flying. They're scared to death."

National Weather Service meteorologist Bill Alder said this morning that it was hail, not snow, on the mountain peak.

He said hail stones up to an inch and a half in diameter also fell over other scattered areas of the two counties.

A Roy police dispatcher reported storm drains overflowing briefly from a 45-minute rain storm.

At about the same time, the Snowbasin ski resort in Ogden Valley was getting pelted with inch-thick hail, said Judy Blackner, an administrative assistant in the resort office.

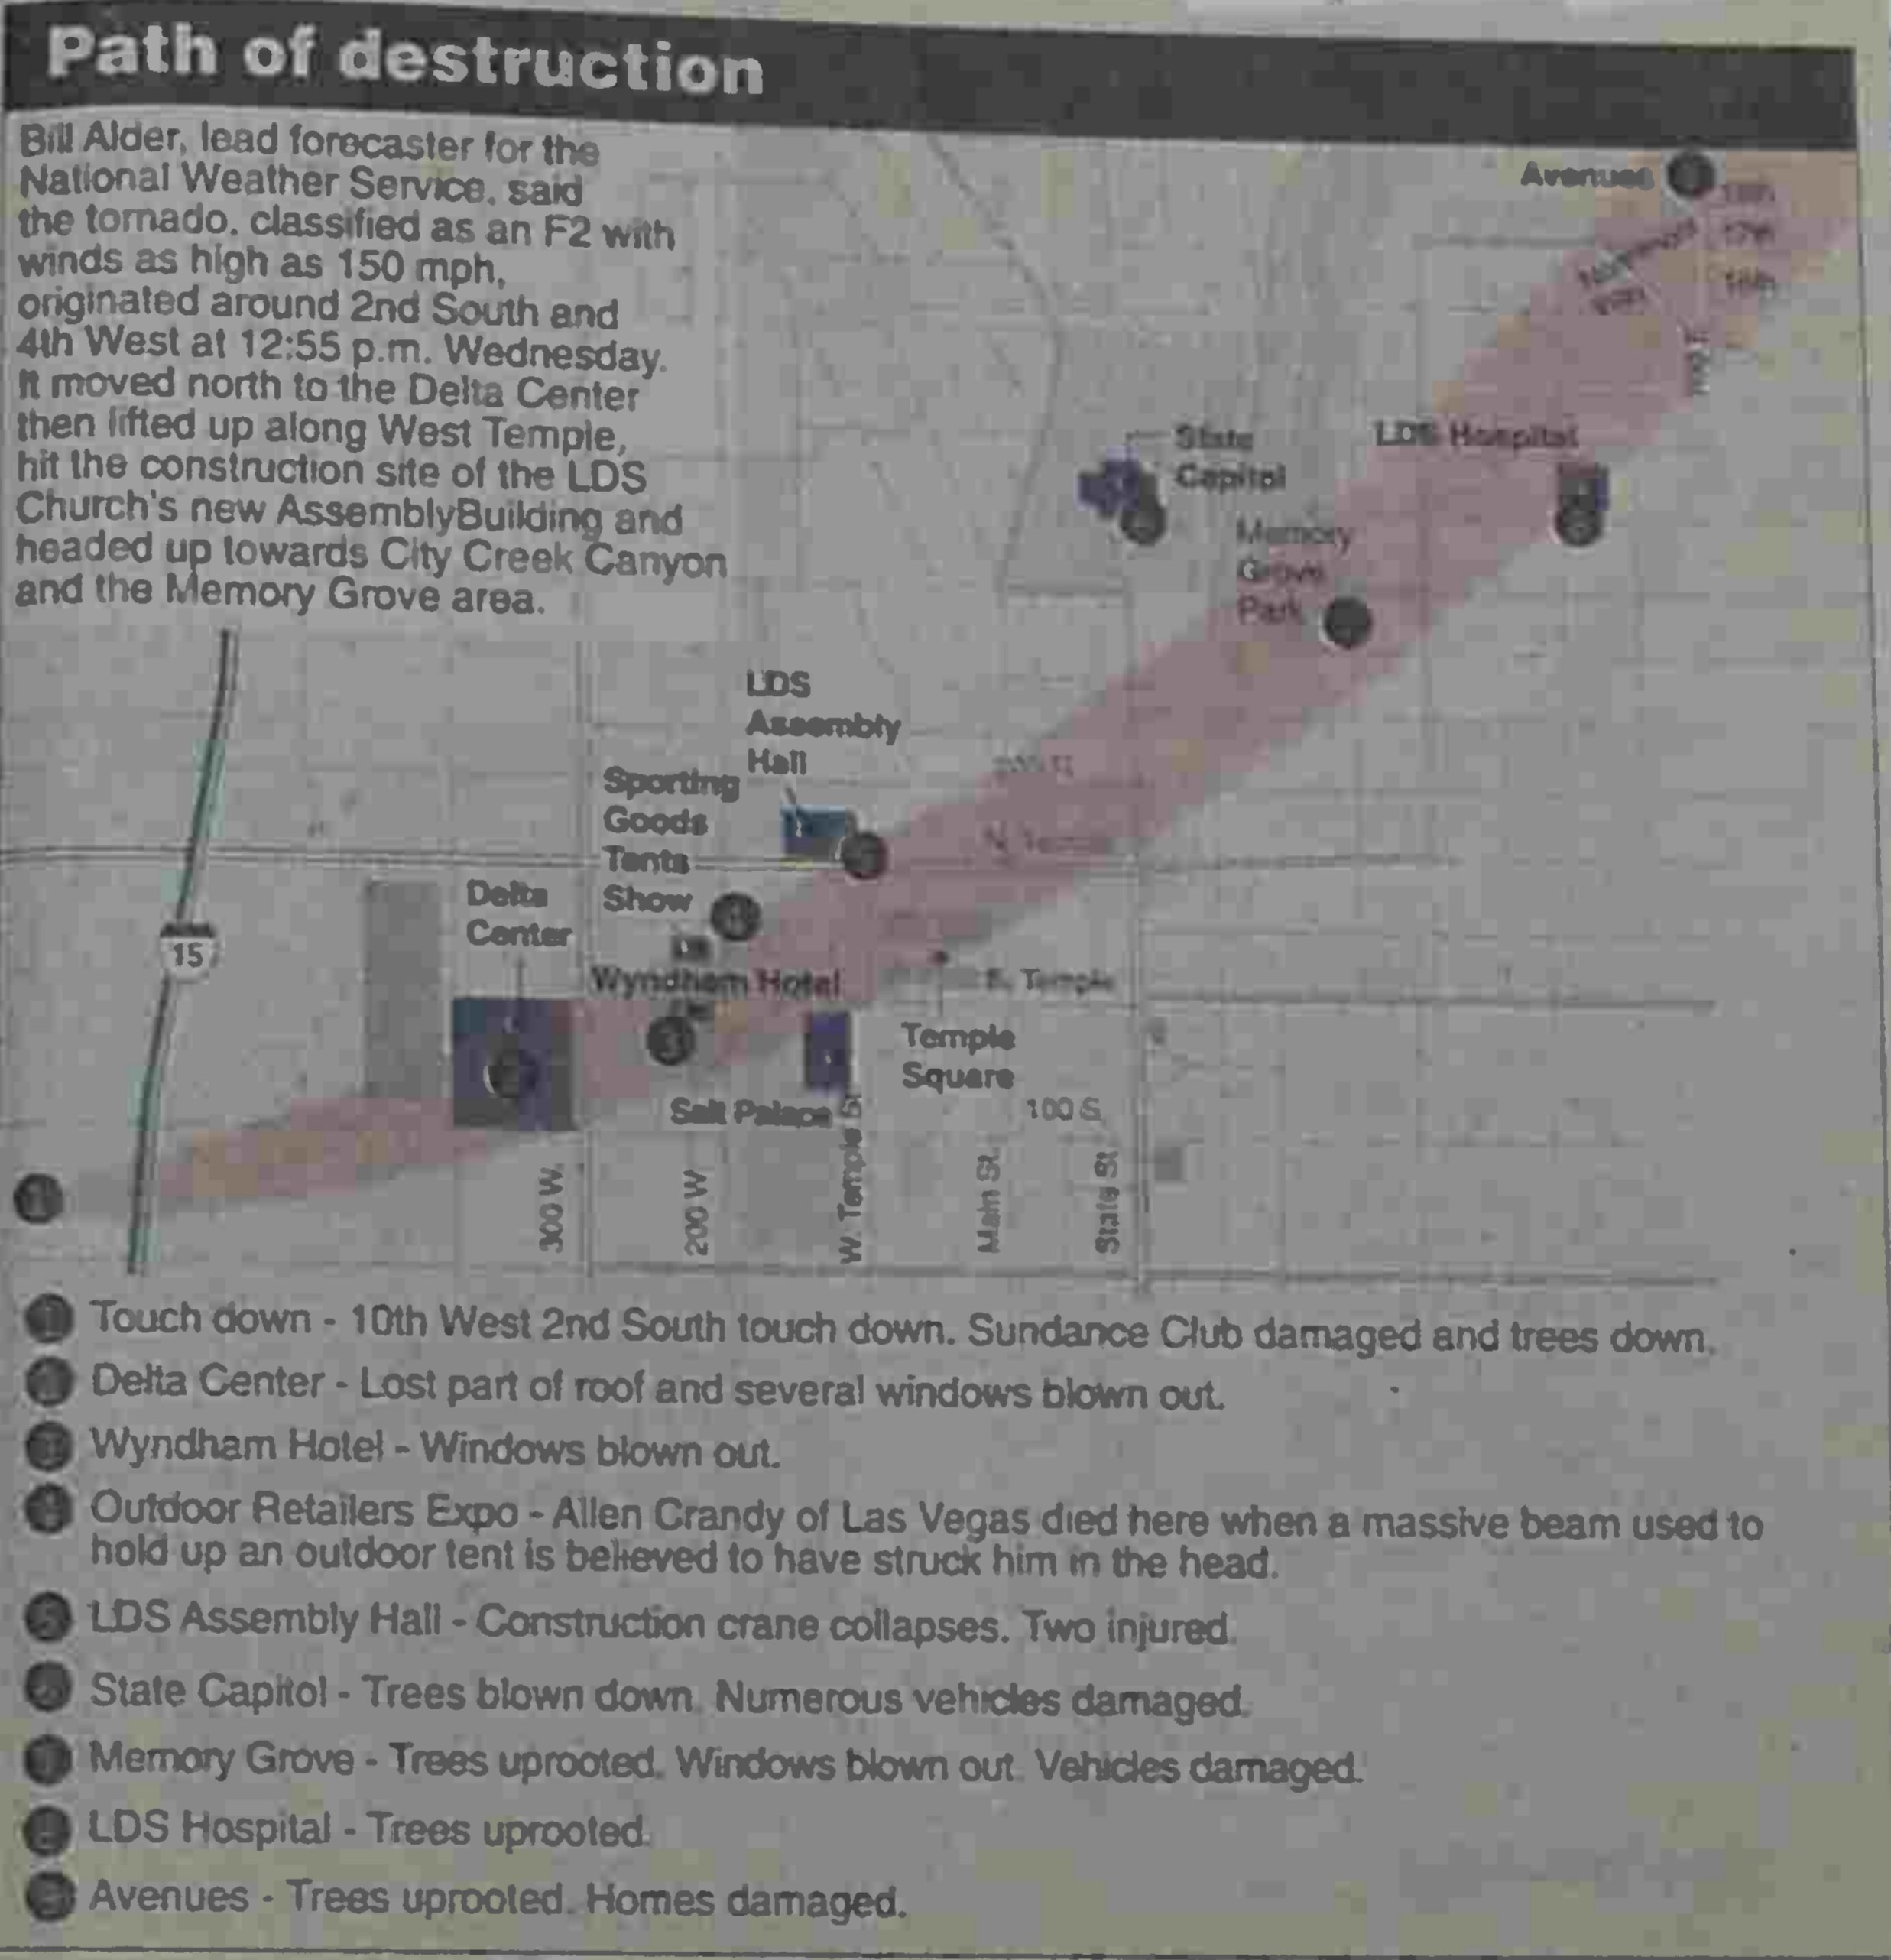

By about 4 p.m. the hail had subsided, replaced by heavy thunder and lightning.

Blackner said employees avoided using the telephone for fear a lightning strike would hit the resort.

Alder said he had reports that wind gusts of up to 100 mph were measured at the top of Snowbasin.

Harrisville to get major retail project

45-acre shopping center, possibly including Wal-Mart, to be built

By BRYAN CORLISS
Standard-Examiner staff

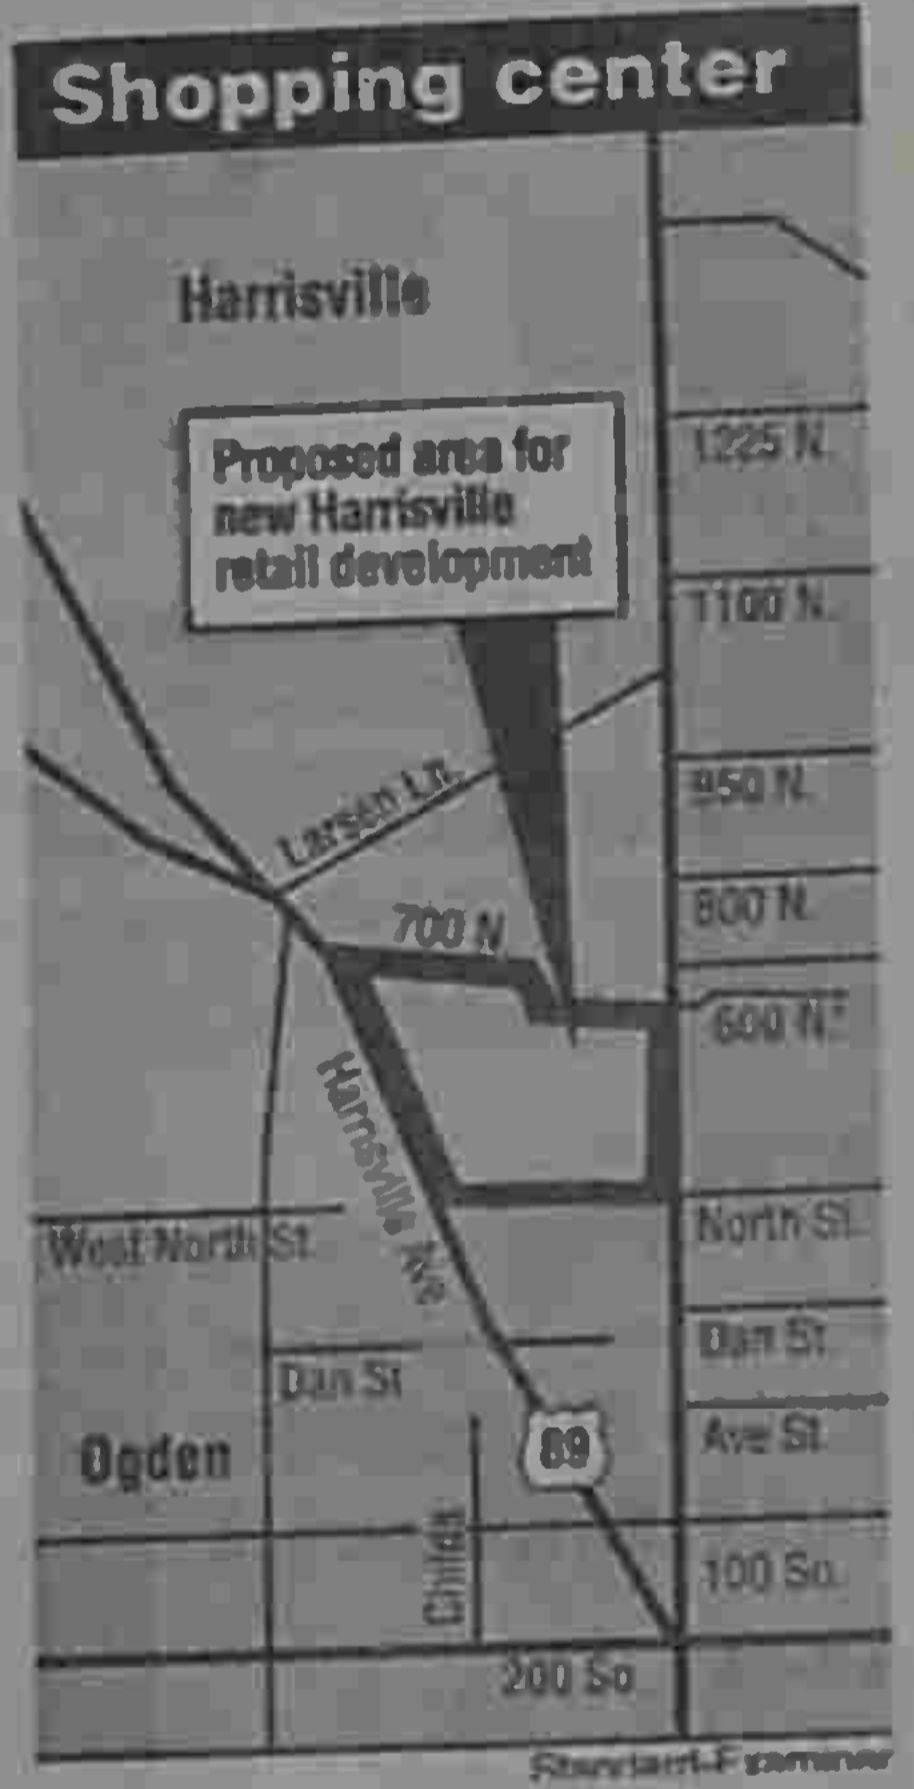

HARRISVILLE - A developer wants to build a 45-acre shopping center along the Ogden-Harrisville city boundary.

The centerpiece would be a major "big box" retailer, said Carl Cook, a partner in The Boyer Co., which wants to develop the site.

Cook declined to identify who the potential anchor tenant would be. He's talked with several major retailers who are interested but doesn't yet have a signed agreement, he said.

But Harrisville Mayor Fred Oates said the word in town is Wal-Mart. "To me, they're a major retailer," he said.

Wal-Mart spokeswoman Daphne Davis said there are "no immediate plans" to open a new Ogden-area store. However,

er, she described the suburbs north of Ogden as "a nice area"

See PROJECT/12A

Project

From 11A for one.

On that point, Cook agrees.

The company's draft plans show a store of well over 100,000 square feet, with room for up to eight other stores or restaurants around the parcel, which now is a mix of chicken farms and small houses between Harrisville Avenue and Washington Boulevard.

The proposed site is sandwiched between two of the Ogden area's major north-south arterials. The number of people who drive past it each day will rival Riverdale Road locations, he said.

And it's in a part of Weber County that isn't overrun with retailers already, Cook said. "This kind of balances out the Ogden area," he said. "It would change some shopping patterns in Ogden, I think."

That is, if it's built.

There are some hurdles to be overcome. Not all of the people who own land within the poten-

tial boundaries of the site have agreed to terms with The Boyer Co., Cook said, although the three largest have, and that's enough land to move ahead with the project.

And Harrisville and the company will have to agree to terms for connecting North Street and West North Street along the southern edge of the project.

Having southside access is essential to the project's success, Cook said. He's sketched out a plan to hook the two streets, with a connecting corridor that swings north through Harrisville.

Oates said he generally supports the idea of a shopping center. "It'll be a good thing for Harrisville, to have a commercial zone come in," he said.

But he wants to know more about the road project before making a commitment, Oates said.

"I'm not going to put the city in debt," he said.

Cook presented the proposal to the Harrisville Planning Commission Wednesday night.

Work could start within 30 to 60 days, Cook said. "If they say 'yes,' we'll pursue it as quickly as they'll allow us."
