61° Little colder A.M. I
42 turned electric blanket
on early hours this morning.
Warmed house and got the

two pieces of darkening film

and the light distracts Edward.

line I was concerned about that
Dennis more will put a drain.
No water in it so it is draining.
Called Charlie Moffat and
asked him to bring the dental tool
to me as Edward needs it to file
a rough spot on his denture. He
said he would Saturday. He has
had some blood tests & no sign
of hepatitis or damage. Needs another
blood check. He still works at
V.A. hospital in Salt Lake. Said

October 22-10 Friday $\frac{62}{47}^{\circ}$
High overcast. Then some
sunshine later in day. Not
too cold. Got morning chores done.
I put rest of plastic sheeting

Foggy A.M. We got up late.
Showered dressed. Ed was
ready for the day. Breakfast and
lots of housework done. One batch
of laundry done. Sun shone
before noon. Not warm.

Quilley called. She was going
to Mc Kay - the hospital to see
Ray Miller. He was having surgery.
She said Kathleen stayed with
him until midnight or so thought
he was going to die and didn't
want to be alone. She talked to
Bruce this morning and she
didn't sound good. She isn't
well either.

Surprise - John Brackbank
visited us this afternoon
for two hours. He is a childhood

friend of our Bruce. Best
family lived in 15th Wood
so they are friends of ours.
He and Bruce are 62 yrs old
now. So far to visit him.
He is a counselor or advisor
how to get out of debt + some
I spend your money. He works
for a company. I have out
past John R. I keep going
south by toll road. His
wife Duff is retired from
teaching school. They have
travelled a lot.

Bruce called about 3-50.
His basement is full of
water. He thought he had
turned a water pipe off
+ it froze + broke + water

run in basement. Don't
know who he will call for
help. I said Steve Dept. + he
might call his insurance
agent.

Edward has been painting
on the ceiling. Some picture
for two days. It is
supposed to be grey but he
got yellow on it in areas.
He wants to take art books
down again to look for a
dove picture. He has done
it 3 or 4 times and just
a few days ago we went
thru them and I refused
to take the books down
today. He forgets he has
looked thru them + never

finds ^{what} what he is looking
for.

He is on the couch
looking thru the screen
back again. I'm using
my crazy. Darius: idiot.

The furnace won't come
on. I called Big Christensen
He came. The main switch
on the electric panel box in
little bedroom. Trips off.

I can't turn furnace on and
when it goes off the switch
trips off again. If I can
keep house warm I'll call
Kings to come and check
the furnace.

Evelyn said the doctor
checked the cure on Rays

leg and different medicine
and pain medicine trying
to control the pain. He
is to have another ultra
sound on calf of leg and
if he has infection there.
I'm sure surgery too clean
it tomorrow. Kathleen
is with him and Evelyn
said she looked terrible.
She is ill also. Bruce
called at 6:55. He talked
to insurance agent and
no coverage with the
water seeping thru the
rock foundation. Brenda
called Gloria as they have
pumps. But she came and
used a plunger on the

drain and it finally
drained free. Brenda
used shop vacuum and
sucked up 30 gal. of water.
He hauled it outside.

He mopped the floor and now
it has to dry. He said
Brenda was upset and he
said after she cursed him
"I don't need a lecture,
I need help." Don came
down to help. They had
paste board before there & they
got wet & ruined some items.

Water is messy and
can be damaging when
out of control. Now well
I know. I knocked more
ice of drain & put salt on the

drain area. The furnace
won't come on or shut off
automatic. Called Bro. Bob
Christofferson about 6⁰⁰ p.m. He came
and checked furnace on electric
in bed room. The furnace circuit
flips off when we put it on.
He had a meeting at 7⁰⁰ +
I had the furnace on 3 times
& then the switch went off.

He came back after the
meeting & checked the switch -
wouldn't work. He said the
big white wire needs to be
replaced - grounded somewhere
He was here until 9⁰⁰. I
appreciated his concern.
We turned the electric blanket
on and went to bed. I lit

the water taps drip as in
flat in house. I slept
restless - stressed with furnace.

December 3.10 Sunday.

We slept warm under the
elec. blanket and covers.
I got up and turned elec. over
on and a small elec. heater,
called Range Heating but they
were too busy with customers
and may come later today.

Was here when Roy came &
they visited and worked on
the elec. part and decided
the big white wire needed
to be replaced. Roy checked
under house & found a
WATER leak. What a
surprise! We have leaks
thru the years. # 13 or 14.
Roy went for wire - tools &
plumbing supplies. He got
the furnace ~~working~~ fixed to
give us heat. He has all
the equipment and working

Now, he has to crawl
under house - tight
spot as he is a big
man - large girth. I
helped him thread & pull
white wire - He has been
here 4 hrs already. 2:30.
He is under house to connect
the wire to furnace. 3:15 he
is connecting wire to furnace.
Connected wire to Circuit Breaker

has to finish drying the basement
and get things away when dry.
He bought Ballite to put it on
on to plug off the floor. Water
leak on front porch over door

poor connection of metal pipe
on the house. Plug is set
until the snow gets off roof.

Roy stopped by to ask of the furnace
was working. I thanked him.

Edlyn said the boys had
a disagreement about Roger
horse business. They got
an answer from Roy. He said
he couldn't draw this year.
Costs thousands of dollars
