January 1, 1999 Friday = mild weather
Sun shining. Edward up early.

After breakfast I prepared macaroni
salad & got the housework done. Watched
Rose Parade from Pasadena, Calif. Edward
cleaned and oiled his old gun and put
it away. I visited Bev. & Lloyd. She didn't
cough as much as yesterday. The vaporizer
is helping. Ben & Kevin were there. Edward
walked down and locked us out of the house as
we didn't have our house keys with us.

Howard Nealey came and showed us how to release
the screen and we had cracked the window
open again & he opened them and crawled in
and opened the door. He is a good neighbor.
We put a spare key outside in case of an
emergency. A good lesson to learn. Evelyn
came to visit after the dinner at Kathleen's.
The men went home to do chores. Jack & Valerie
came to visit. Brought candy and onion to
us. I prepared a good meal and we ate.
Evelyn left and Valerie & Jack left early as
they couldn't call Michael as the phone off
the hook. Bud called and we enjoyed
a good chat. They will leave Sunday.

for Arizona. Bev called later and she said Bud called her also. He sounded good. I don't think he is drinking like he sounded before. Not thick tongue and talking silly. Read + watch T.V.
January 2, 1999 Saturday. Partly cloudy A.M. We were up early. After breakfast and prayers Edward in studio to put a shelf up that pulled away from wall. He has a cold + sore throat. I washed + dried clothes + done light house work. Jack put a new dust bag in the vacuum I bought from Tanna. I don't know how to replace it. Evelyn called from Stephen and I met her + we did some shopping. I filled gas tank on car. Stopped at the Credit Union and checks are deposited. We averaged about \$25⁰⁰ more a month with the raise. Evelyn came to our place and we ate and she + Edward had a nap. Later Marlene and boys came for awhile. They had been to the Christ race + Miles team lost. Evelyn + Marlene left at 4:00'clock. We have read and watched T.V. Edward has a sore throat and a cold.

January 3, 1999 Sunday Mild weather. Sun shine. no snow. Edward doesn't feel well. Had cold. Evelyn called to ask about her dad. She said there was a picture of Blake on the front of L.R. newspaper. They lost the race yesterday. She + Bruce went to Clays to see the baby but no one at home. Evelyn worries as they take the baby out even if he is sick. I called and talked to Brenda + Nate. Bruce had to work at Schriebers unexpectedly. Brenda said her mother goes to the doctor tomorrow. She hopes to have the feeding tube removed from her nose. I made toting checks + phone bill check today. Edward didn't feel well enough to go to church. I attended the block meetings except I left Sac. meeting early. I saw Bruce called to talk to his dad and me. He worries about us also. He took the lights off his house yesterday. I called Evelyn to have her tell Clay that Mark Jones said for Clay to call him as they couldn't find his job application. I don't have Clays phone number. Edward + I watched an interesting T.V. program about Volcanism. We went to bed at 11:00'clock.

We went to Dr. Bryan's office + he showed us Edwards + Ray + told us what he planned on in surgery: decompression to relieve pressure on lig nerves plus fusing of two disks + making it stable with bone + 4 screws.
