She can move around but hurting. She is going to Chiropractor tomorrow. Marine plans on selling her folks and may come to duplex. Bruce got here about 10:00 A.M. We visited awhile. He wanted me to go to see Janalyn but he called in Morgan. He asked him to stop a bit store to take wood shavings to her for the rabbit. We left at 10:30 P.M. I left a message for Dave Nelson to come and get the car for inspection. Bruce visited Janalyn, Burke and family. He bought them milk and donuts. He also visited Evelyn, Bruce, Harlene. White & kids were there. White & Clay going on snowmobiles. Burke quit his job. Kat to look for another one. We ate lunch when Bruce came. He said we need to have a new connection on the lead of hot water pipe in big bathroom. If it gets worse I'll call the plumber. I shut the control off & put the towels around & under pipe. I worry. I air swept water out of carpet & put more salt on frozen water. Evelyn called just before Bruce left.
